

## Corporate Backgrounder

Founded in 2009, Wildcard Network, Inc. provides a digital gift card management app that allows users to buy, give, re-gift, load, and use their gift-cards - all on a smartphone. It brings life to gift cards by offering a convenient way to manage store cards like never before. Users can buy gift cards for a variety of national merchants and then use those cards via Wildcard's technology. The Wildcard app is available on both iPhone and Android smartphones. Wildcard Network can be found on the Web at [www.wildcardnetwork.com](http://www.wildcardnetwork.com).

The company boasts a robust management team with an impressive pedigree from market-leading companies including MP3.com, Vivendi Universal, Musicmatch, DivX, Qualcomm, Motorola, Leap Wireless, Pocket Communications, AT&T, MSN, RadioShack, JCPenney, InComm, and Coinstar.
