

Rub Her The Right Way on Valentines Day with Smartphone Gift Card Discounts from Wildcard Network

- Buy or use a 1-800-Flowers digital gift card and save up to 30% off -

San Diego, CA (PRWEB) February 10, 2011: Wildcard Network Inc., the leading developer of smartphone digital gift card management solutions, today announced it's Valentines Day special, the first of its kind. Users who purchase a digital gift card from either SpaFinder or 1-800-Flowers will receive a special 10% discount. In addition, a person will receive an additional 20% from 1-800-Flowers if the gift card is redeemed by February 15, 2011.

The new Valentines day offer is just one way users of Wildcard Network can not only have the ability to manage their cards, but also the opportunity to get discounts. With Wildcard, users find an effortless way to purchase gift cards by allowing them to browse vendor offerings in one place, purchase the card electronically and even have the card sent via email to a recipient. The card is electronically secure, quickly downloadable to an iPhone or Android phone and allows the consumer to enjoy the benefits immediately. Wildcard also organizes and tracks a consumer's cards, allowing them to see at a glance what cards they have and the balances on each.

About Wildcard

Wildcard Network, Inc. provides the only complete gift card management technology that allows users to buy, give, re-gift, load, and use their gift-card balance - all within a single smart phone app. It brings life to gift cards by offering a convenient way to purchase, give, receive, and store cards on the iPhone and Android platforms. The company boasts a robust management team with an impressive pedigree and experience from market-leading companies including MP3.com, Vivendi Universal, Musicmatch, DivX, Qualcomm, Motorola, Leap Wireless, Pocket Communications, JCPenney, InComm, and Coinstar. Wildcard is based in San Diego, California and can be found www.wildcardnetwork.com.
